Open knowledge

Several application fields

Cross-fertilization

Know-How

Is it possible to do business in Ris?

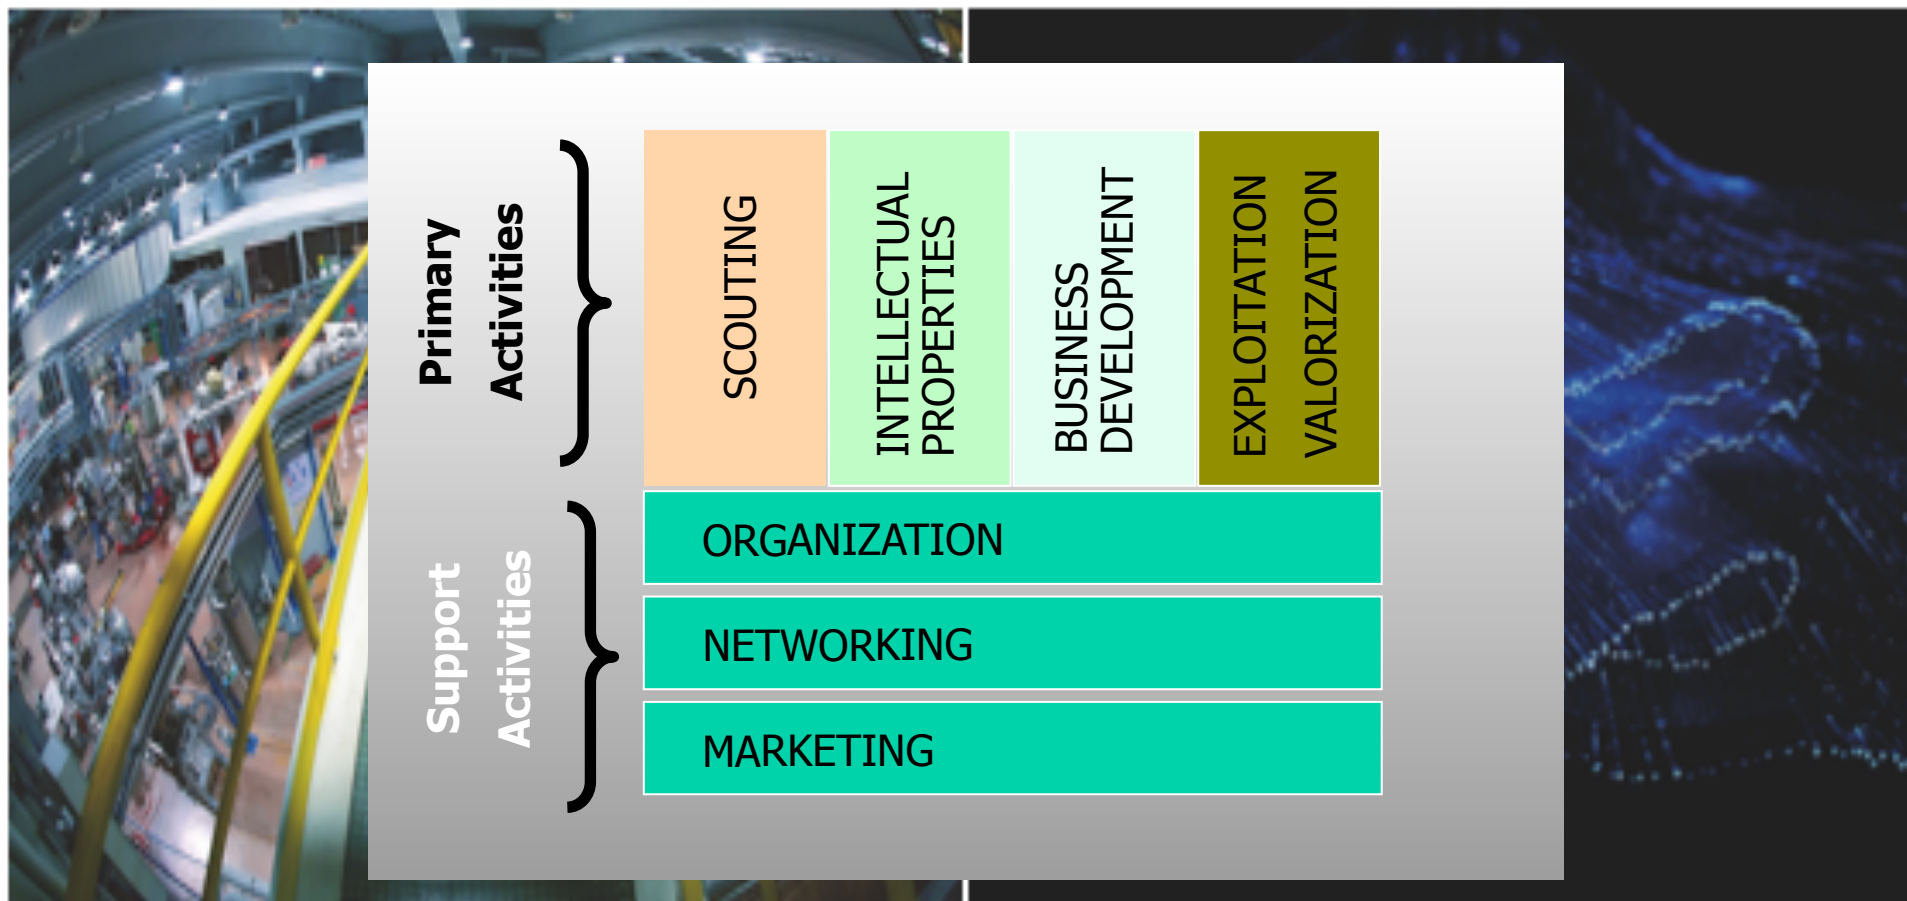

Industrial Liaison Office set up in 2004:

To manage the technology transfer activities

To manage the industrial relations

To manage the Intellectual Properties of Elettra

Team of 4 people with scientific and economic background

Activities:

- Sale of beamtime establishing partnerships
- Consultancy activities
- Production of equipments
- Licensing Know how
- Spin off creation

Gain experience
working on a
industrial activity

Better
understanding
of a process,
product etc..

Increase
awareness on
“due time” and
delivery

Scientist point of view

**Yeah, if you could just,
come to the dark side,
that'd be great.**
