## Research Infrastructures and COVID-19 Research

### Responses to the questionnaire

#### SHARE ERIC

The Survey of Health, Ageing and Retirement in Europe (SHARE) is a multidisciplinary and cross-national panel database of micro data on health, socio-economic status and social and family networks of about 140,000 individuals aged 50 or older (around 380,000 interviews). The data cover 28 European countries and Israel.

#### SERVICE/S IMPLEMENTED

SHARE-ERIC contributes to research about the social, health and economic impact of COVID-19. Across 27 European countries and Israel, a special “SHARE Corona” questionnaire is currently being prepared, covering various research areas: Infection and Health, Mental health, Economic, Social Network, Healthcare. Data collection will start at the end of May/beginning of June. The data will offer researchers the possibility to measure and interpret differences in a cross-country and a longitudinal dimension. ---

#### ▪ What stage in COVID-19 intervention your RI is addressing?

Data for research in the fields of Epidemiology, as well as the social, health and economic impact of COVID-19; Research specified to the risk group

#### ▪ Instruments/databases involved:

Additionally to SHARE’s already existing longitudinal datasets about people 50+, SHARE includes a special “SHARE Corona” questionnaire in its recent fieldwork, which will allow examining in depth how the risk group of the older individuals is coping with the health-related and socioeconomic impact of COVID-19. The great advantage of these data will be the possibility to measure and interpret differences in a cross-country and a longitudinal dimension.

#### ▪ How is the proposal submitted?

<http://www.share-project.org/data-access.html>

#### ▪ Is the submission continuous, or linked to a deadline?

continuous

## CHARACTERISTICS OF THE ACCESS

---

**Restrictions:** SHARE data may only be used for scientific research. Every researcher worldwide can apply to access the data free of charge: <http://www.share-project.org/data-access/user-registration.html>. Any other uses, such as a commercial use of the data, are excluded as matter of principle.

**In the case of analytical facilities, modality of access allowed:** Remote access only

**Comment for remote access only:** SHARE ERIC

All RIs: Is the access free for non-proprietary research?	YES
All RIs: Is commercial access available at reduced prices?	NO

**Additional comments related to the questions above:** After registration, SHARE data may be downloaded from the corresponding Research and Data Center; files are suitable for stata and SPSS; advanced knowledge in the respective statistical software is required for data handling. Registered users must obey to SHARE's condition of use: <http://www.share-project.org/data-access/share-conditions-of-use.html>

## ACCESSIBILITY OF THE PUBLICATION AND DATA

---

Is there any requirement to publish in open access journals?	NO
Is the data generated associated to metadata and is it publicly available?	NO
Where is the data or metadata published? (e.g. in the institution's catalogue, in other open data repositories, etc).	SHARE's data files themselves may not be published openly. Only results based on the data. For more information look at SHARE's condition of use: <a href="http://www.share-project.org/data-access/share-conditions-of-use.html">http://www.share-project.org/data-access/share-conditions-of-use.html</a>
Do you have further comments about data or metadata?	Citation of SHARE is obligatory for published results: <a href="http://www.share-project.org/data-access/citation-requirements.html">http://www.share-project.org/data-access/citation-requirements.html</a>
